

Red-light running is a dangerous driving habit that can have serious consequences. The Insurance Institute of Highway Safety reports that in 2009, 113,000 were injured and 676 people were killed in red-light running crashes. In that same year, 62 Floridians lost their lives making Florida the 3rd most deadly state in the nation for red-light running crashes.

The Town of Cutler Bay's red-light safety camera program is designed to reduce the number of violations, crashes and injuries caused by red-light runners. The objective is to change drivers' behavior, making the community safe as more and more drivers obey the traffic signals and stop on red.

A red-light violation occurs when a motorist enters an intersection after the traffic signal has turned red. Motorists already in the intersection when the signal changes to red are not considered red-light violators. For example, a driver who enters on a green light will not receive a citation even if that motorist must wait until the light turns red to complete a left-hand turn after oncoming traffic clears.

The Town of Cutler Bay Police Department review each photograph and corresponding data and determine if there was a violation of Florida State Statute 316.075 (1)(c)(1). Under this law, a red light camera violation is \$158, must be paid within 30 days of receipt of the notice, and you must follow the instructions on the back of the notice.

This is a traffic safety initiative that will continue to make the Town of Cutler Bay an excellent place to live, work and play.

Red-light Safety Cameras will be located at the following locations:

- Caribbean Blvd @ Dixie HWY
- Old Cutler Rd @ Hainlin Mill Dr.
- Allapattah Rd @ Cutler Ridge Blvd
- SW 184th Dr. @ Dixie HWY
- Franjo Rd @ Old Cutler Rd
- Marlin Rd @ Old Cutler Rd
